## TERMS OF SALE

All coins and bills are guaranteed genuine.

New Bidders or customers sending in bids for the first time must positively give first-class reference, bank reference preferable, or else send a deposit of at least 25% of the total amount of bids. Otherwise, their bids will not be accepted. To those known to me who have established credit, a reference or deposit is not necessary, and purchases will be sent out promptly after the sale. In appreciation of this courtesy, the purchaser remits promptly.

The terms are prompt cash settlement after the sale, and no time given. Collectors who are not certain that they can pay promptly, are asked not to bid. The coins in the sale are the property of my clients, and I must make prompt settlement for them.

Remit by money order, draft, check, or in any way most convenient. Stamps accepted for accounts that are below one dollar only.

Coins will be bought below your bids where other offers permit, as this is competitive bidding, executed in good faith.

The usual charge of 5% will be made for executing your bids, and for packing and sending out material. No charge made on anything not actually purchased. This fee is very low for the superior service I expect to give you.

Receipted bills are not sent out after your remittance as this is unnecessary. Your check, draft or money order itself is a receipt. However, if a 3-cent stamp is enclosed we will send receipt.

Be certain that you bid on the lot you wish to buy. We will correct errors and adjust claims, but you should not expect us to pay for your mistakes. Be careful in making your bids. Be sure that you bid on the lot you wish to buy, and at so much per piece.

Bids must reach me by the morning of the sale. Mail them in time so as to avoid disappointment. At each sale some bids arrive too late to be executed.

All bids are entered as received and lots distributed to the highest bidder without reserve. When two or more bids are the same, and there are no higher bids, the first received gets the lot. When two or more unlimited bids on a certain lot are sent, the first one received gets the lot at a 5% advance over the highest actual bid.

Between the seller and buyer, my position in describing the con-

dition of coins and bills has been neutral. My classifications are generally considered to be conservative, by the collecting public.

It is easy to bid by mail. If you do not know how much to bid on any items, write me giving numbers in catalog and I shall be glad to inform you as to values. It is useless and a waste of time to make low bids that have no chance of success. I sincerely hope that each collector acquires some nice lots from this sale that give him a real thrill, and joy of satisfaction.

Please bid by the piece unless stated to bid for the lot. Thus, if there are 12 pieces in a lot and you wish to pay \$6 for the lot, then bid 50c. At each sale someone bids by the lot. Don't do this—bid by the piece.

## PRICE LIST OF FEB. 3d SALE NOW READY

A printed list of all the prices realized at the large sale held Feb. 3 is now ready and will be sent for \$1 cash with order. There are not many left, so please hurry. The sale totaled over \$10,000. The rarest coin sold for \$475.00 and the rarest bill for \$365.00. Over 450 different bidders patronized the sale, the largest number we have yet recorded. Of these, 125 bidders were unsuccessful because of low bids. That left the lots go to 325 bidders who were successful. Over 1500 catalogs were mailed.

## TO COLLECTORS OF GOLD COINS

The order of the Secretary of the Treasury of Dec. 28, 1933, while it exempted coin collectors, numismatists, and coin dealers from turning in their gold coins, stated in effect that the quarter-eagles or \$2.50 gold pieces had to be given up. Any collector of gold coins could see at a glance that this was unjust, since some of these pieces of the rare dates cost over \$100 each. Several of the dealers, including the writer, took it upon ourselves to get busy with letters and telegrams and on January 1st I sent a lengthy statement of facts to the newly appointed Secretary of the Treasury, a copy to my Congressman, with full information on the subject. On January 11, 1934, the order was amended by the Secretary of the Treasury and the President, supplemented Jan. 15th, and instructions issued Jan. 17 as follows: "Gold coin having a recognized special value to collectors of rare and unusual coins (but not including quarter eagles, otherwise known as \$2.50 pieces, unless held, together with rare and unusual coin, as part of a collection, for historical, scientific, or numismatic purposes, containing not more than four quarter eagles of the same date and design, and struck by the same mint) are exempted and need not be turned into the treasury." A letter from Nellie Taylor Ross, Director of the Mint, says: "Accordingly quarter eagles may be retained to the extent of the above citation." No dealer has use for more than four units of gold coin of any one design of the same date struck by the same mint. Therefore, a limit of four gold coins of any single design of the same date and mint was placed. This was to forestall the hoarding of gold coins under the subterfuge of saying that they were in a collection.

Congressman Leo E. Allen of this district made a personal visit to the Department of the Treasury, and writes in conclusion: "Coin collectors have little need to worry providing they follow the instructions above quoted." Foreign gold coins may be collected and bought and sold the same as United States gold coins. Thus, bona fide coin collectors and dealers do not have to turn in their gold coins.—M. H. BOLENDER.
